That marks the parting of the ways of the old line and the cutoff. Roughly speaking, the new roadbed is the top of an equilareral triangle of which the old one supplies the two logs. Washington N. I.

have done along similar lines and with what degree of success. To put the mat-ter simply, a library of this kind serves as a clearing house for municipal infor-

eng and has an average height of has been in charge of the sound for years. sixteen patrolmen and four clerks were shifted to outlying precincts.

The boiler squad has been under sussides go down straight and steep to the picien for some time, but it was not until complaint was made by an engineer Nathaniel L that he could not get a license unless he Mutual Gas

what it means to take no favors from the landscape.

They have used concrete everywhere on the new line. There are seventy-three bridges and culverts of this material and even the fence posts along the right of way are made of it. Reenforced with steel bars they can be turned out at about 16 cents apiece, which, as some one said yesterday, has the old fashioned wooden ones beaten to a pulp.

There are seventy-three things and culverts of this material and the problem of the control of the control

ville, Staten Island, was put at the head of it. Eachman was examined by the Commissioner himself as to his fliness for the squad, and no one was accepted

# "LITTLE DOG SPOT" IS DEAD. Mayor's Pet Believed to Have Died of Sulphur Poisoning.

"Little dog Spot," the mascot of City died last night after an illness of three be you think those nimble waiters didn't jump under the eye of the biggest boss of all.

On the way home the officials came to tell what this job which the Lackawanna undertook in the summer of 1908 is going to mean to the railroad. On Christmas even the first passenger trains will be run over the new cutoff. Seventeen of the regular trains can be accommodated on the tracks as they stand now. They are double all the way, and in some places there are three and four tracks. For the days in the abartments of Custodian

presidents: George A. Cullen, passenger for the dog when Spot didn't show up traffic manager; Nathaniel Duke, assistant | Wednesday morning. When he was told

was taken sick Spot refused to enthuse over the Mayor's visit and the Ryans believed that Spot's end was near.

Ryan says that a special coffin will be made for Spot and after lying in state for a day he will be buried in a place yet to be selected.

salary of the job is \$10,000 a year. Mr.

COURT ACCEPTS TRIANGLE FAC-TORY BOLT AS EVIDENCE.

More Witnesses at Harris-Blanck Manslaughter Trial Declare That Washington Place Door Was Locked on Day of the Fire Many Girls Testify.

The blackened door stile with the bolt of gift.

"I now move," said Mr. Bostwick, "to

Building corroborated their testimony. and I'll come and open it for you!" and I'll come and open it for you." He took a key from his pocket and unlocked it. Other girls testified to the same facts. One of them said that after Brown had unlocked the door with a big key he had to break a smaller lock which was above the knob before he could open it.

Minne Wagner, who also worked on the nighth floor, said she was in the crowd.

one to open it.

"Do you realize just how long two
minutes mean?" he asked.

"I don't know how long it was," answered the witness; "it seemed to me like

that he could not get a license unless he paid for it that an attempt was made to clean house.

Last October William H. Black of 29

McDougal street, Brooklyn, tried to get an engineer's license and was put off on one pretext or another. At its lie went to Sumuel Marcus, of the Society for the Prevention of Crims.

asked Mr. Bostwick.

Yes, he answered, "and I always found it locked."

The said that the last time he tried it before March 25 was in September, 1910. He said that the meters were on the Wash. bered a queer sight that was incident to this construction. When they were building up this fill they raised towers at the two ends of the three mile strip and shot up another in the centre. Double cables were strung between them strong enough to sustain movable bridges on which tracks could be laid for dump cars and a dinky engine. The natives of the country were surprised at the sight of a train being hauled along by a small locomotive in midair.

But yesterday a real train was running along this aerial route. It was also dipplied into a cut 130 feet deep and running through another 100 feet deep and a mile long through the solid rock. That's what it means to take no favors from the landscape.

she was asked about the door to the elevator on the Washington place side. The door to the stairs, she said, was al-
